SOUTHERN ANSWERS

TO QUESTIONS PROPOUNDED BY A

NORTHERN NEWSPAPER.

WHAT IS THE SOUTHERN QUESTION?

The Answers Nearly Unanimous That All

the South Wishes to Be Let Alone to

Manage Its Own Affairs.

PHILADELPHIA, April 18.—The Philadelphia

Inquirer will publish tomorrow interviews

with leading men of the southern states

and politicians of the southern states. Only men

well known in their sections were applied to,

and to these the following questions were put:

1. What is the southern question?

2. How should it be met to produce the

greatest good to the south?

The idea of the Inquirer was to obtain the

real views of southern leaders on a subject

which is becoming very prominent.

The responses nearly all voiced the same

sentiment that the race problem is a great one

to be solved, and that the south should be al-

lowed to manage her own affairs without in-

terference. Every man regarded his neighbor

as one of the South, and all agreed that the

best way to solve the problem was by the

peaceful and lawful means.

Governor Richardson, of South Carolina,

says that the southern question is a race

problem—SHALL THE AFRICAN OR CAUCASIAN PREDOM-

INATE THE SOUTH?

The solution is in the strict avoidance, by

the general government, of any distinctly

southern policy, and in leaving to the states

themselves, the management of their own

domestic affairs.

Governor Fitzhugh Lee, of Virginia, says

that the south is not a subject for

discussion, and that the south is not a

subject for discussion.

Governor Buckner, of Kentucky, protests

against the idea of a southern question.

Governor Harrison, of Ohio, says that the

south is not a subject for discussion.

A Young Man Murders His Father, Because

the Old Man Had Cut Off His Sup-

SPRINGFIELD, Mass., April 18.—At West

Farms, a farming hamlet, lying midway be-

tween Westfield and Montgomery, and five

miles from Westfield center, this morning,

Joseph King, a wealthy and well known

citizen, 78 years of age, was shot and killed

by his son, Elmer King, his eldest son, and the house fired

and burned.

Some time after shots were heard near by,

directing the assembled neighbors to the spot,

twenty rods away, where the murder was

found lying in a pool of blood, having shot

while lying in the bed, and in his mother's

presence. Other occupants of the house saved

the murdered man's body from the burning

house, but could not save the house. The

murderer had ruined himself by drink and his

father had obtained a divorce. For several

years he had lived upon means furnished by his

father but had exhausted that source of in-

come, hence the tragedy.

A Cool Chicago Thief Steals a Registered

CHICAGO, April 18.—A mail car on the Lake

Shore road, which left here at 7:45 last night,

was robbed before it had gotten out of the city

limits. The thief secured a pouch containing

about 100 pieces of registered mail for Cleve-

land, and was rifling the contents in an empty

freight car between Twenty-second and Twen-

ty-third streets, when detected by a watch-

man. As the watchman looked into the car

the man jumped out through a door on the

opposite side and escaped. He had opened

The Interstate Commerce Commission

Makes an Important Ruling.

WASHINGTON, April 18.—The Interstate

commerce commission today promulgated its

decision in the matter of an investigation of

the rates of the Grand Trunk rail-

road, of Canada. The decision has been

looked for with much interest by the railroad

officials, many of whom were present at differ-

ent times during the progress of the investiga-

tion when the grand trunk officials were be-

fore the commission. The commission held

that the provisions of the act to regu-

late commerce apply to com-

mon carriers engaged in the transportation

of passengers or property for continuous car-

riage or shipment, from a place in the United

States to a place in an adjacent foreign coun-

try, and that such common carriers are subject

to the provisions of the interstate commerce

act. The commission passes upon the specific

acts complained of and decides that they are

in violation of the interstate commerce law.

The commission also holds that it has author-

ity to institute investigations and to deal with

violations of law independent of formal com-

plaint, or of direct damage to the complain-

ant.

Macon Desires to Have an Interstate and State Drill.

MACON, Ga., April 18.—[Special.]—Macon is in a stir today over the agitation of an interstate and state military drill. Captain Smith, of the Southern Cadets, has noticed the comments in the Constitution from Captain Hall, of the Guard, and others relative to the recent Jacksonville drill, and the Cadets are perfectly willing to meet the Guard again in interstate competition.

World like to see the event; accordingly many of the merchants have expressed a desire to contribute liberally to prizes of an interstate and state drill at Macon.

May 20 has been selected as the date and tomorrow an energetic and enthusiastic committee will commence a canvass for subscriptions.

The programme is this: To offer one prize of one thousand dollars for the best drilled company in the interstate drill, and it is believed that a number of companies will enter. Since the Cadets of Charleston, have challenged the Gate City Guard to a contest for five hundred dollars a side, why cannot these two companies meet at Macon on neutral ground, on May 20th, and contend for the prize of \$1,600, and if need be, fight it out between themselves on the 500 challenge?

The prizes in the state drill are: First prize, \$500; second prize, \$300; third prize, \$100.

The second Georgia Battalion will probably be ordered to assemble in Macon on May 20th, and will add greatly to the number of companies contesting in the state drill, and will also help make a handsome display.

No company that has ever competed in an interstate drill will be allowed to enter the state drill. It is confidently believed that many companies will enter, and thousands of visitors will attend the drill.
